# Using RD Web Access for resource monitoring

Browse to /RDWeb on the server and you will find the login window:

Log in using "**SKYLARK\kiosk**" as the username and "**XEwUS^9R2Gwt8O914**" as the password.

Once logged in, start the "SkylarkStatus" application. Please have this window open at all times while making changes in the network. Notify the system administrators if the CPU goes beyond 80%.
